

Cash Management Service

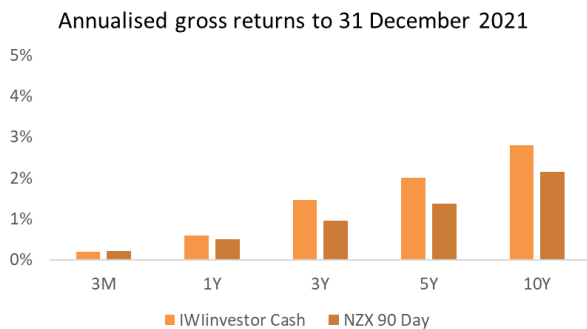

This cash management service is specifically to manage your short-term cash needs. This service allows you to have access to wholesale interest rates and money market securities, accessing higher returns than retail investors, at low risk levels.

Benefits

- ✓ Access to higher wholesale interest rates
- ✓ Access to managed cash funds and short-term fixed interest securities
- ✓ We will manage the maturities & rolling of term deposits for you
- ✓ Cash available overnight if requested before 2.30pm that day
- ✓ Cash which is on call, and not invested, is still earning the Official Cash Rate

Performance

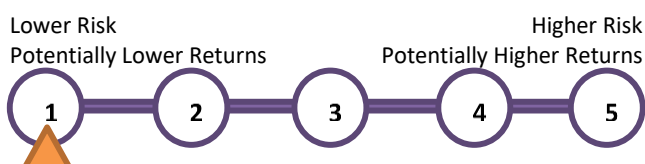

The Cash Management performance is set against the NZX 90 Day Bank Bill Index. The aim is to provide a return equal to or better than the Index return.

Risk

All these investments are low risk. Your funds will only be invested in money market securities that have an 'A' credit rating or better.

Risk Indicator

This investment is considered the lowest risk investment.
