There are no formal minutes from the February meeting as the Committee decided to make use of the extra hours of daylight to tour some of the local roads. This was made possible thanks to Rob, Executive Private Transport.

As roading issues continue to be one of the biggest areas of concern to residents, it is important the Committee understands the breadth and depth of issues in order to best advocate for this community. Of course many of the issues are the same across all the roads - potholes, road edges giving way and the ongoing need for road and roadside maintenance. However there are other concerns that are more specific in nature to individual roads. It was not possible to traverse all the roads in one evening so the Committee are planning to complete the tour next month.
