Inclusion						
1. Will your party provide increased funding that community groups can access for events and initiatives that bring children and families together such as through the arts, culture, sports, leisure activities, volunteering or community action?	No	Yes	No	Skip this question	Yes	Yes
					We commit to increasing access to funding by community groups to implement events and kaupapa that brings the community together and creates a sense of belonging and identity.	
2. Will your party continue to support transport policy that reduces the number of cars we have on our roads and makes public transport free for people who need it most, such as children up to 18 years, young people under 25, adults that study fulltime, and those that hold a community services card?	No	Yes	Yes	Other	Yes	Yes
	Unsure what the public purpose is of fewer cars on the roads.		We've introduced free public transport for under 13s and half price for under 25's. We are committed to making it more aordable, easier and attractive for Kiwis to use public transport	The National Party remains committed to expanding the availability of Public Transport options for a greater number of New Zealanders as well as ensuring public transport is reliable. We will retain subsidies to regional councils to operate public transport networks, however we will not continue with the recent fare subsidies that were announced in Budget 23. Public Transport subsidies for Super Gold Card holders will remain unaffected, ensuring their continued benefits. Regional Councils operating public transport services will continue to be supported to provide concessions for students and young individuals, consistent with public transport subsidies prior to the recent changes.		
3. Does your party support a	No	Yes	Yes	Yes	Yes	Yes

connected New Zealand that would include total internet coverage across Aotearoa, including isolated rural communities, and funding more free connection and devices to achieve more equitable digital access?			Labour is improving connectivity for rural and remote households and businesses, with 400 mobile towers have now been delivered by the Rural Connectivity Group.	The last National-led Government was at the forefront of digital innovation rolling out fibre and more rural connectivity but more needs to be done. We will continue this progress in Government.		
Tick for Kids reflections / recommendations	Tick for Kids advocates for a connected Aotearoa, where community cohesiveness is encouraged through equitable access to events and initiatives that bring children and families together. The removal of barriers to participation, such as lack of transport and digital connectivity, are instrumental in ensuring children have opportunities to engage in their communities and develop their potential.
